2026 Fee Schedule

Monthly fixed rate adjustment

Effective January 2026, please note that the monthly fixed rates have increased by 2.5%. These charges support the administrative operations of our co-op, including customer service, and system maintenance. Please note that fixed rates have not been increased since January 2024, and this adjustment reflects ongoing cost increases associated with operating and supporting our services.

Monthly Paper Bill Fee

Due to rising costs for supplies and postage, along with concerns regarding postal delivery delays, printing and mailing monthly bills has become increasingly costly and unreliable. As a result, we are making an adjustment to how printed statements are provided.

Effective **June 2026**, printed and mailed monthly bills will be subject to a \$5.00 delivery fee per statement. This fee is consistent with similar charges applied by many organizations, including financial institutions.

To avoid this fee and ensure timely, reliable delivery, we encourage customers to switch to **e-billing**. Electronic bills are sent as a PDF by email, offering a more consistent service while also reducing our environmental impact.

We understand that this change may raise concerns for some customers. Our team is available to assist and to help ensure you continue receiving your monthly bills without interruption.

2026 Annual General Meeting

Please be advised that the Annual General Meeting (AGM) has been scheduled for Tuesday, **April 21, 2026**.

Additional details, including the meeting location and agenda, will be provided in upcoming monthly statements & will also be posted on our website <https://rvgc.ca/>.

We encourage all members to watch for this information and to participate in the AGM.
